

CS 440 Meeting Minutes

Group: 4 | **Date:** February 6, 2021 | **Time:** 7:00 PM | **Duration:** 1hr 30mins

Present (On Time): Ayna Jain, Akshant Jain, Shaan Shekhar, Tirth Patel

Present (Not On Time): N/A;

Absent: N/A

Synopsis:

- Discuss about the Design Libraries, Design Templates, and dependencies.
- Discuss prototypes and changes required.
- Discuss the work to be done by the end of next week.

Recent Individual Accomplishments:

- Akshant implemented the base code for the project in React.js Framework.
- Ayna designed the paper prototype for the front-end.
- Shaan started working on the digital/computer prototype of the front-end
- Tirth initialized the project requirements and dependencies like Google firebase, react-router-dom, and hosting to the base code.

Current Individual Activities:

- Akshant and Ayna will start working on the Authentication methods and integrate them with the front end.
- Tirth and Shaan will start working on the interface design elements and customize them according to the design goal.

Individual Action Items:

- Everyone will find out ways to integrate the global search and other functionalities in the website.
