TOTAL						100	90
Overall	Some table and pictures in Part1 and Part2 is still not named, Index pages require fomattting, Remove all red text before submitting, Continue the numbering for Part 2 as 9,9a.... Some of acceptance tests are not explained well Make sure all the requiremnts are listed using a same formatting						
	How does this report compares to expectations and/or other similar documents.						

Based on the concept that a report value is related to the quantity of information in it times the quality of that information, divided
Note that the values here are not actually multiplied and divided.

Note : If the assignment feels complete without pictures etc, full marks will be given to the corresponding section
A particular section marked yes does not guarantee full marks, if the section has been considerably complete it will be marked a yes. If only everthing is perfect full marks will be given.
